Use this design guide to create a professional salon quickly...with confidence.

This guide has been developed to not only present the quality Belvedere Preferred Stock 2 product offering, but to provide helpful salon design and planning information. Whether you're starting from scratch or planning to remodel, this guide will serve as a valuable reference tool. You'll find numerous "DESIGN CONSIDERATIONS" located throughout. Look for tips on everything from creating great first impressions, to lighting and space planning, to selecting the right products to create your unique salon environment.

Get it all together with Preferred Stock 2 from Belvedere

Preferred Stock 2 is the number one choice for quality quick-ship furniture and equipment in the salon industry. Our broad offering includes contemporary products in popular colors and styles. Cabinetry ships in 10 business days, while all other PS2 products ship in 48 hours. Please allow 24 hours for order entry. Join the thousands of salon and spa owners who have come to depend on us for great products and quality customer service over the past 80 years.

Selection. Speed. Service.

DESIGN CONSIDERATION	01																								
<h3>The Case for Remodeling</h3> <p>There are a variety of valid reasons why a salon or spa owner should periodically remodel not only their salon décor, but upgrade equipment as well. Here are some key points to consider:</p> <p>Remodeling reinforces the buying decision A fresh interior space reinforces your clients' decision to buy your products and services. And it makes them feel great about getting a new look from your up-to-date salon.</p> <p>Improve employee morale and recruitment It's a fact that people prefer to work in a clean, stylish setting surrounded by new, modern furniture and equipment.</p> <p>Remodeling increases business A general rule of thumb says that business will increase by 20 percent in the first year after remodeling. And there are tax advantages. If your old salon equipment is fully depreciated you may end up having fewer deductions, so you're paying more taxes (consult your tax advisor).</p> <p>When should you remodel? Color and fashion trends change every three to five years. To keep up, salons should follow this same time frame for remodeling. From a pure business point of view, a salon principal should remodel when there's a definite downswing in business or when new customers are not being generated.</p> <p>Who can help you remodel? If you're planning to open a salon or remodel your space, it may pay to have professional assistance from an architect or an interior designer. Belvedere designers and distributor partners are seasoned professionals who can assist in your salon remodeling project.</p>

- dryer sold separately

### Belle Shampoo Chair PSBL84-BL

- 22"(W) x 24"(D) x 32"(H)
- tubular chrome frame
- black five-star base

## DESIGN CONSIDERATION

02

### A Quality Chair

Your clients are typically seated the entire time they're at your salon, making chair selection a critical factor in creating a positive experience. Here are some things to keep in mind:

- Look for a chair that uses superior-quality fabrics, including sulfide- and stain-resistant vinyls with heavyweight, woven fabric backing and a cambric fabric chair bottom for a professional-grade finish. Remember, you can't tell the weight of a fabric by looking at an upholstered chair, so ask specific questions about fabrics
- Multi-density foam that's glued to the seat wood will prevent shifting
- Tapered or T-bar footrests make it easier for clients to get in and out of the chair
- Make sure you get a quality warranty: three years on all-purpose chair back mechanism and pump; one year on upholstery, laminates, plastic, metal, wood materials, porcelain enameled and painted base-plates
- The seat should be made of durable six-ply molded wood
- All chrome parts should be triple plated to automotive quality standards and extremely abrasion resistant
- Chair bases should have a 23-inch diameter or more
- Styling chairs should have a pump that provides an eight-inch lift and a pump bail that allows you to adjust height from almost anywhere around the chair

Added Value: Cambric covers bare wood and fasteners, and provides a professional finish to every Belvedere chair

## TASK CHAIR

A flexible seating option for the busy salon professional.

### Task Chair w/Back PSST12-BL

- 32-1/2"(H) x 24-1/2"(W) x 23-1/2"(D)
- upholstered seat and back
  - pneumatic 5-1/2" height adjustment
  - black five-point base with dual-wheel casters

## RECEPTION CHAIR

A comfortable task seating option with arms.

### Reception Chair w/Back PSST11-BL

- 32-1/2"(H) x 26"(W) x 23-1/2"(D)
- upholstered seat and back
  - pneumatic 5-1/2" height adjustment
  - black five-point base with dual-wheel casters

## CHILD SEAT

### Child Seat PS12C-BL

- 17-3/4"(W) x 11-3/4"(D) x 6-1/4"(Thickness)
- Comfortably seat children with this tailored option.
- deep foam padding
  - stain-resistant black vinyl covering

## VIVA RECEPTION CHAIR

### Viva Reception Chair PSVV29-BL

- 23"(W) x 21"(D) x 31-1/4"(H)
- A sturdy, stackable reception chair that compliments any salon décor. Fully upholstered seat and back assures client comfort.
- completely assembled
  - black arms and legs

## NEWPORT SOFA

The Newport sofa is a modular, thick-cushioned seating choice that offers comfort and design flexibility.

### Newport Sofa PSNRS51-BL

- 24"(W) x 29-1/2"(D) x 32"(H) straight  
29-1/2"(W) x 33-1/2"(D) x 32"(H) wedge
- modular

Newport Sofa Wedge  
PSNRS52-BL

## Color Selections

All Belvedere PS2 cabinetry is manufactured in Black, Wild Cherry, Fusion Maple, Cafelle, and Yorkshire Cherry laminates (shown from left to right). Cabinetry items will ship in 10 business days. Please allow 24 hours for order entry.

# Vanities

## CREST WALL-MOUNTED VANITY

The sleek contemporary Crest is cabinetry designed to complement varied salon décors and features decorative black edging.

### Crest Vanity PSCT130TF

- 48"(W) x 18"(D) x 9"(H)
- wall mounted
  - two drawers
  - accommodates one hand-held dryer, one clipper and two curling irons

## DARLINGTON TOWER

Single station, flexible for back-to-back applications.

### Darlington Tower PSDL127TF

- 55"(W) x 14"(D) x 89"(H)
- Two drawers, one with lock
  - Tilt-out tool holder
  - Two mirrors and three glass shelves
  - Two canopy lights
  - Multi-outlet electrical strip and wiring are UL approved

## VERSA

Versatile with lots of storage options, the Versa rollabout is an easy choice.

### Versa Rollabout PSVR108TF

**Adara Floor Vanity PSAD126TF-42**

- 42"(W) x 15"(D) x 36"(H)
- tool holder in top
  - storage area with adjustable shelf
  - full-extension drawer slides

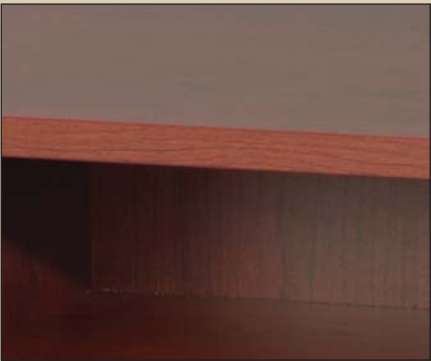

## DESIGN CONSIDERATION

# 03

### The Right Cabinetry

Always be sure cabinets have the functional elements your salon requires and are designed for salon use. Here are some things to look for in quality cabinetry:

- PVC edge banding applied with polyurethane glue to resist water damage, chipping and dents; rounded corners and edges to eliminate sharp surfaces
- Balanced construction achieved with heavy-duty, 45-pound/cubic foot particle board that is thermal fused to prevent warping
- Accessories (tool holders, towel drops, bottle wells, etc.) that are custom made for cabinets
- Quality furniture builders offer an extensive line of standard and designer laminates
- Reception desks should offer the option of having a kick plate and a purse shelf
- Drawers should incorporate full-extension slides for total drawer access
- Water-resistant glue should be used throughout construction
- Concealed, European-style hinges will provide a clean, attractive appearance
- Make sure the manufacturer offers a quality warranty: one year on laminates and one year on drawer slides and hinges

Added Value: Belvedere ensures its construction materials are laminated on both sides and sealed to provide equal density and added strength

# Shampoo

## CONGO BULKHEAD

Elegance and utility. Everything has a place with plenty of storage options.

### Congo Bulkhead PSCG160TF

- 42"(W) x 12-1/2"(D) x 74"(H)

- features two drawers
  - footrest
  - padded armrest

## DESIGN CONSIDERATION

# 04

### Lighting Tips

Lighting should be a key consideration as you develop the design for your salon.

Here are some tips:

Reception and Waiting Areas

- Consider adjustability and style – this is where your salon's image really needs to come through
- Consider using reflector bulbs to make your retail "pop"
- Use indirect lighting in coves, soffits and other concealed locations to help create your desired atmosphere

Cutting and Styling Areas

- Select lighting with high color rendition that will provide sufficient illumination to work
- Soft frontal lighting can be used to overcome the shadowing effects of overhead lighting

Washing Area

- Supplementary vertical lighting directed at the bowls is usually your best option here

Spa Areas

- Relaxing and colorful chromotherapy lighting is embedded in varied spa equipment
- Soft lighting is a key to creating a nurturing environment

Drying Areas

- Soft, direct lighting is essential here because many clients will read as they dry
- Poorly located lighting can cause glare and will create a negative experience in these areas

Added Value: Modern manufacturing technology makes Belvedere a leader in furniture production for the salon and spa industry

# Reception

## MERCURY DESK

A desk with rich, contemporary design. Equipped to be functional with plenty of storage areas.

### Desk PSMC104TF

- 47-7/8"(W) x 20"(D) x 42"(H)

### Dryer Handle DH1B

- tube with angled grip
- used with cart for secure handling
- fits B900B dryers

## DESIGN CONSIDERATION

# 05

## Dryer Decision

Creating a relaxing and enjoyable drying experience involves a combination of environment and equipment. Here are some tips for offering the best of both:

- Dryers should be placed in a comfortable and aesthetically pleasing area
- Provide the latest magazines in several categories to appeal to a variety of clients or create a small library of the best authors
- Consider offering earphones for listening to music
- A maximum air flow (2500 fpm) reduces drying time by up to 25 percent
- A hood height adjustment of 10 inches is optimal
- Dryer air intake needs to be unobstructed, even when the chair is against the wall

Added Value: Belvedere dryer hood filters are easy to access from the top of the dryer
