The Belvedere Cast Iron Enamel Story

It was 1934 when Belvedere founder Walter Kiefer and his team gathered around a drawing board to create a new concept in shampoo bowls – a bowl with a “dip” on one end to accommodate the client’s neck for optimum comfort. Fast forward to today, Belvedere USA is still providing innovation and distinctive style with the highest-quality cast iron enamel bowls in the salon and spa industry.

As the industry’s only manufacturer of quality cast iron enamel bowls, Belvedere handcrafts each bowl to create a durable, beautiful finish. Cast iron enamel bowls are cast to Belvedere’s rigid design and quality specifications and then triple fired to assure durability and consistent performance. Belvedere’s cast iron enamel bowls are available in more than 30 fashion colors to match any salon décor.
